

KFZ-Smartphone-Halterung

Modell Nr.: EA-965 A und EA-965 B

CAR SMARTPHONE HOLDER

WITH CAR ADAPTER CHOOSE FROM A 2-POINT OR 3-POINT RETAINER

TECHNICAL DATA:

- With 3 functions: Car mobile phone holder, universal car charger and USB cigarette lighter adapter
- Simple assembly and easy start-up
- Adjustable holder with gooseneck (approx. 7.87" (20 cm))
- Holder material: PC synthetics, gummed
- Gooseneck material: Carbon steel
- Holder can be flexibly adjusted
- USB charging function and overload protection
- Blue LED operating display
- Universal gummed 2-point holder for models with a width of approx. 2.17" to 3.35" (5.5 cm to 8.5 cm)
- Universal gummed 3-point retainer for models with a width of approx. 1.77" to 2.83" (4.5 to 7.2 cm) and a height of approx. 4.33" to 5.31" (11 to 13.5 cm)
- Micro-fuse in the adapter: 250 V 2A Ø F 5 x 20
- Input voltage: 12 – 24 V_{DC}
- 2 x USB port
- Output power:
Output A: 5 V_{DC} , 2.1 A
Output B: 5 V_{DC} , 1 A
- **CHARGING CABLES ARE NOT INCLUDED IN THE PACK CONTENTS**
- Box content: Car adapter, 2-point or 3-point holder

Start-up

- Insert the cigarette lighter adapter for the smartphone holder in the socket of the vehicle's electrical system. The blue power LED will light up.
- Place the smartphone in the holder and use a USB charging cable (not included in the pack contents) to connect it with the jack in the cigarette lighter adapter.
- Align your device.
- If applicable, the vehicle ignition must be turned on so that the socket of the vehicle's electrical system is operational.

Changing the micro-fuse

Take your smartphone out of the retainer and pull the USB charging cable out of the cigarette lighter adapter.

Pull the cigarette lighter adapter out of the socket of the vehicle's electrical system.

Unscrew the contact tip off of the cigarette lighter adapter by turning the contact tip counterclockwise.

Remove the fuse and insert a new, undamaged fuse of the same type (see section "Technical data").

Screw the contact tip back onto the cigarette lighter adapter. In so doing, make sure that the fuse enters into the contact tip.

Safety notes

Mount your smartphone holder so as not to obstruct the view of the road, vehicle controls, rear-view mirror or airbags.

Mount the smartphone holder so that it is well within your reach.

Make sure the USB cable used is securely laid to avoid snagging or interference with the driver.

Do not in any case allow your attention to be diverted from road traffic. You may endanger yourself or other road users as a result.

Carefully mount your smartphone in the smartphone holder and make sure it is secure.

Observe the safety notes and user manual for the device, which the smartphone holder is connected to.

Store the packaging carefully as it contains safety and assembly instructions.

If you sell or pass the device on to others, be absolutely sure to also include the packaging with the safety and assembly instructions.

Old devices must not be disposed of with household waste!

If the smartphone holder can no longer be used, every user is required by law to dispose of old devices separately from their household waste, e.g. at a collection point in his community/borough. This ensures that old devices are recycled in a professional manner and also rules out negative consequences for the environment.

For this reason, electrical devices are marked with the symbol located on the left side.

Disposing of the packaging

Dispose of the packaging separated into single type materials. Dispose of cardboard and carton as waste paper and foils via the recyclable material collection service.
